# ***Avant –Propos***

*Il nous est particulièrement agréable de présenter à la communauté éducative, l'annuaire statistique scolaire 2017-2018 du Ministère de l'Education, de la Formation Technique et Professionnelle, sur l'enseignement préscolaire, fondamental, post-fondamental général et pédagogique, post-fondamental technique A2. Ce sentiment se justifie par deux raisons principales :*

- 1. La fierté de disposer d'un instrument indispensable au pilotage de notre système éducatif ;*
- 2. La satisfaction d'avoir rempli, cette année encore, le mandat de sa production.*

*Ce document, appui indispensable à la prise de décision des décideurs politiques, les gestionnaires de l'éducation, met à la disposition du lecteur les informations chiffrées des enseignements (préscolaire, fondamental, post-fondamental général et technique) sur :*

- ❖ Les écoliers et les élèves par années d'études, par statut selon le sexe ;*
- ❖ Les salles de classes ;*
- ❖ Les commodités ;*
- ❖ Les personnels enseignants et administratifs ;*
- ❖ Les résultats aux examens officiels.*

*En tant qu'une production scientifique, le présent numéro intéressera tout particulièrement : les décideurs politiques, les partenaires techniques et financiers bilatéraux et multilatéraux de l'éducation, les acteurs économiques et sociaux, les gestionnaires de l'éducation et les chercheurs.*

*Sur le plan de l'épistémologie, nous voulons donner l'assurance à nos lecteurs que l'annuaire ainsi mis à leur disposition véhicule des informations collectées sur le terrain. Il respecte, dans la mesure du possible, les principes qui régissent non seulement la qualité mais aussi la fiabilité des données statistiques.*

*Ledit rapport aura pour objectifs majeurs de faciliter la lecture des données de l'annuaire, de mettre en évidence les forces et les faiblesses de notre système éducatif et de proposer des correctifs aux faiblesses de ces dernières.*

***LA DIRECTION***

---

## METHODOLOGIE DE COLLECTE ET D'ANALYSE DES DONNEES

Les objectifs poursuivis par la publication de l'annuaire statistique de l'éducation sont toujours de (i) répondre au souci des autorités éducatives de disposer des données statistiques exhaustives, fiables et mises à jour ; (ii) rencontrer la pertinence et l'utilité des données ainsi recueillies et traitées pour la définition des politiques éducatives et le pilotage du système ; (iii) mettre à la disposition des professionnels de l'éducation des informations susceptibles de les aider à la prise de décisions éclairées ; et (iv) le souci de fournir des données sur le système éducatif en vue des comparaisons internationales, régionales et nationales.

La mise à disposition des données statistiques du Ministère de l'Education, de la Formation Technique et Professionnelle pour l'année scolaire 2017-2018 est l'aboutissement d'un processus qui se déroule en plusieurs étapes : la collecte des données, la saisie, le traitement, la publication et la diffusion de l'annuaire. Les données statistiques de l'éducation sont collectées auprès des établissements scolaires qui constituent les unités statistiques, à l'aide d'un questionnaire élaboré à cet effet pour chaque sous-secteur de l'enseignement. Chaque questionnaire comprend des rubriques servant à recueillir des informations générales sur l'école, les salles de classes, les élèves, les enseignants, le mobilier et les équipements didactiques.

Au début de chaque année scolaire, à la date de référence du 15 Novembre, le questionnaire est envoyé à tous les Chefs d'établissements des écoles publiques et privées par l'intermédiaire des Directeurs Provinciaux de l'Education, de la Formation Technique et Professionnelle (DPEFTP) et Directeurs Communaux de l'Education, de la Formation Technique et Professionnelle (DCEFTP). Le questionnaire dûment complété par les directeurs d'écoles doit être retourné au Bureau de la Planification et des Statistiques de l'Education, de la Formation Technique et Professionnelle (BPSEFTP) en empruntant le même circuit, mais inverse, que celui pris lors de la distribution.

La saisie des questionnaires se fait au BPSEFTP par le Service des statistiques grâce à l'interface de saisie StatEduc2. Toutefois, tous les questionnaires émis n'ont pas tous été retournés. En effet, le taux de retour des questionnaires dans l'ensemble se situe aux environs de 95% bien qu'il varie selon les provinces. Le taux de non-retour est fort accentué dans les écoles à caractère privé surtout dans la Mairie de Bujumbura pour les secteurs préscolaire et Post-fondamental technique A2. Il fallait dès lors envisager une méthodologie pour compléter et estimer les données manquantes. A cet effet, on a eu recours pour lesdites estimations aux contrôles de cohérence et à la reconduction des données de l'année précédente.

Quant à la qualité et la fiabilité des données, la collecte dans les établissements privés, surtout dans la Mairie de Bujumbura, constitue une entrave sérieuse : les

---

effectifs d'écoles, des élèves et des enseignants ne sont pas bien connus et stabilisés à la date de référence du 15 novembre.

Le présent document est destiné aux professionnels de l'éducation (administrateurs, planificateurs de l'éducation, organismes nationaux et internationaux œuvrant dans le secteur de l'éducation, ...), mais aussi aux parents, étudiants et chercheurs en éducation, et à toutes les personnes ou associations intéressées qui peuvent y trouver des données susceptibles de répondre à leurs questionnements.

Nous tenons à remercier tous les acteurs qui ont permis l'élaboration et la publication de ces données de l'annuaire statistique et plus particulièrement les Directions Provinciales de l'Education de la Formation Technique et Professionnelle, les Inspections Provinciales de l'Education, les Chefs d'établissements scolaires, le personnel du Bureau de la Planification et des Statistiques de l'Education, de la Formation Technique et Professionnelle ainsi que les Partenaires Techniques et Financiers pour les appuis multifformes.

Nous regrettons cependant que les données des sous-secteurs de l'Enseignement des Métiers et de l'enseignement supérieur ne figurent pas dans cet annuaire 2017\_2018 pour des raisons multiples.

## I. GENERALITES

### A. APERCU SUR LE SYSTEME EDUCATIF BURUNDAIS.

Le système éducatif burundais est constitué de l'enseignement formel et de l'enseignement non formel. Ces deux types d'enseignement sont à partir du mois d'avril 2018 gérés par deux Ministères à savoir : le Ministère de l'Education, de la Formation Technique et Professionnelle, et celui de l'Enseignement Supérieur et de la Recherche Scientifique.

#### 1. L'enseignement formel

L'enseignement formel comprend 5 paliers de formation à savoir : les sous-secteurs préscolaire, fondamental, post- fondamental, métiers et supérieur. Au niveau des trois premiers sous-secteurs (paliers), certains établissements scolaires se trouvent sous convention c'est-à-dire que leur gestion est confiée à une organisation religieuse ayant signé une convention avec l'Etat. Les ressources humaines et matérielles dans ces établissements sont assurées essentiellement par l'Etat. De ce fait, le statut ou le pouvoir organisationnel des écoles se trouve étendu, prenant le caractère public (Public Etat, Public sous convention, Public communal) ou privé (privé, consulaire). Ici, nous présentons un bref descriptif des paliers de l'enseignant formel.

- ✓ **Préscolaire** : Il est régi par le décret n°100/025 du 24 mars 2004 ainsi que par une ordonnance ministérielle organisant les structures communautaires (garderies communautaires et cercles préscolaires). Concernant l'âge d'admission et la durée de la formation, les écoles maternelles publiques et les structures communautaires accueillent en général les enfants de 4 à 5 ans et la formation dure seulement une année, avant que les enfants ne s'inscrivent en 1<sup>ère</sup> année des écoles fondamentales. Les écoles privées, quant à elles, reçoivent en général les enfants à partir de 3 ans et la durée de formation varie de 1 à 3 ans ;
- ✓ **Fondamental** : Il accueille officiellement des enfants de 6 ans qu'ils aient ou pas suivi l'enseignement préscolaire. La formation dure 9 ans à l'issue desquels les élèves sont soumis à un concours national de Certification et d'Orientation au post-fondamental ;
- ✓ **Post-fondamental** : La durée de formation dans les domaines des sciences, langues, sciences sociales et humaines et économique est de 3 ans. La formation pédagogique est assurée dans les écoles normales et dure 4 ans. La formation technique dure 3 à 4 ans selon les domaines de formation. A la fin de la formation, les élèves sont soumis à l'examen d'Etat et les lauréats sont orientés à l'enseignement supérieur public (Université du Burundi ou l'Ecole Normale Supérieur) et ou privé ; ceux qui échouent peuvent avoir un accès aux Instituts d'enseignement supérieur professionnel privé ;

- 
- ✓ **Métiers** : Des activités d'apprentissage professionnel sont organisées dans des centres d'enseignement des métiers, de formation professionnelle et artisanale. Les sections organisées concernent les secteurs du bâtiment, agropastoral et agroalimentaire, de la menuiserie, de la comptabilité et du secrétariat ainsi que de l'économie familiale. La durée de formation est de 2 à 3 ans et un projet de formation modulaire est en cours. Ces centres d'enseignement des métiers se trouvaient précédemment classés dans le secteur non formel, mais la politique nationale de l'Enseignement des Métiers tend à formaliser progressivement ce sous-secteur, qui peut représenter un recours pour les élèves n'accédant pas au post fondamental ;
  - ✓ **Supérieur** : Il est dispensé dans des universités et dans des instituts publics ou privés. La formation dure de 3 à 8 ans. Force est de constater que les lauréats à l'Examen d'Etat fréquentent aussi les universités privées poussés par l'engouement et le sentiment de poursuivre les facultés que n'offrent pas l'enseignement supérieur public ;
  - ✓ **L'éducation spéciale** : Elle est assurée à l'endroit d'un petit nombre des handicapés. Les établissements qui s'occupent de l'éducation spéciale appartiennent en général à des organisations privées.

## **2. L'enseignement non formel**

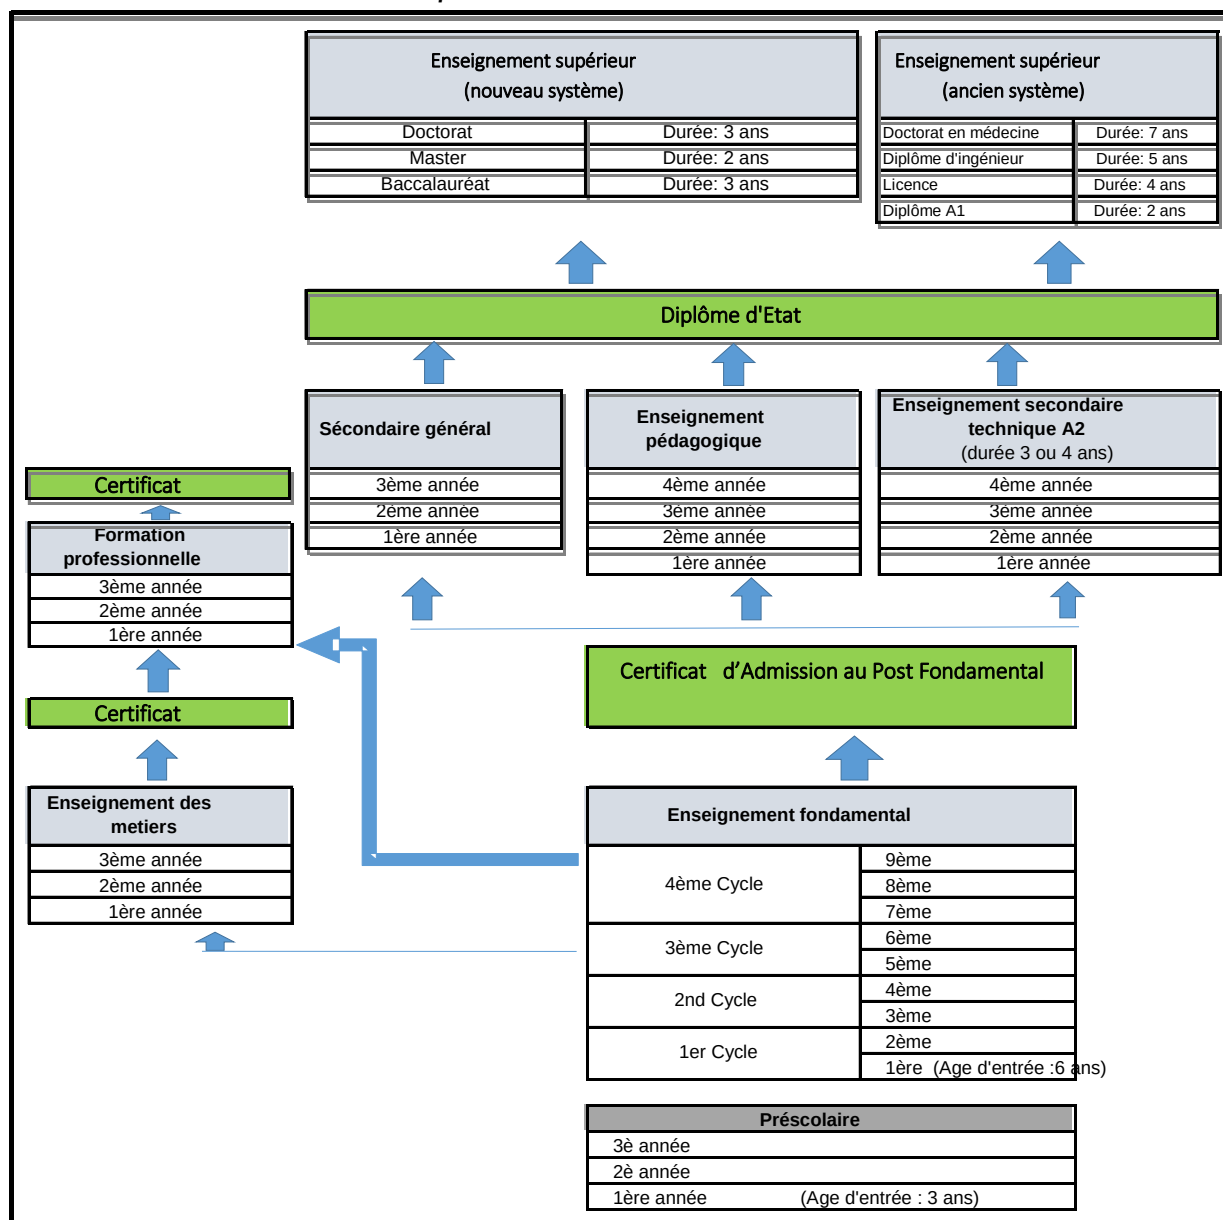

**L'enseignement non formel** est constitué en général par les activités d'alphabétisation qui sont organisées à l'endroit des enfants non scolarisés ou déscolarisés et des adultes analphabètes. Elles sont en grande partie supportées par des organisations privées (confessions religieuses et ONG). Des activités post-alphabétisation sont organisées par certains intervenants notamment en donnant de la littérature, en accordant aux post- alphabétisés des financements pour constituer des associations de production, etc...

Le présent annuaire ne portera que sur l'enseignement formel, pour les secteurs préscolaire, fondamental, post-fondamental général et pédagogique, ainsi que technique A2.

### 3. Parcours scolaires potentiels de l'enseignement au Burundi

Le schéma ci-dessous décrit le circuit que peut emprunter un élève dès l'enseignement préscolaire à l'enseignement supérieur, en passant par l'enseignement fondamental et post-fondamental. Les options possibles y sont sommairement indiquées.

Circuit éducatif burundais à partir de l'année scolaire 2013/14

## B. DONNEES GLOBALES DU SYSTEME EDUCATIF AU 15 NOVEMBRE 2017
